NEW WORK SCHEDULE TO TAKE EFFECT MONDAY

In order that persons working in 8-hour schedules can have advantage of as many daylight hours as possible, a change in the work schedule, effective Monday, was announced by Project director Ray D. Johnston today.

The new work hours are: 8:30 a.m. to 12:30 p.m. and 1:30 p.m. to 5:30 p.m.

"This schedule is also in cooperation with the wartime saving program through conserving electrici-

city by utilizing daylight hours as much as possible," Johnston stated.

New hours for serving meals, necessitated by the change in the work schedule, were also announced in the bulletin.

They are: breakfast-- 7 a.m. to 8 a.m.; dinner-- 12:30 p.m. to 1 p.m.; supper-- 6 p.m. to 6:30 p.m.

The cooperation of all workers in the Center was asked by Johnston in abiding by the new schedule.

COMMUNITY ENTERPRISES READY TO EXPAND, DECLARES SELLERS

"Several new Center stores which will stock merchandises including dry goods, clothing and variety goods will be established as soon as floor space in the blocks is available," announced Roy Sellers, chief of Community Enterprises, today.

Other enterprises scheduled to be set up in the near future include the barber and beauty shops, shoe and radio repair shops, laundry and moving picture house, he stated. Provision of other services needed by the people will also be made, it was reported.

The trustees who will advise on the policies of the enterprises, until the permanent cooperative association is formed, are: Yoichi Agari, Juichi Fujimori, Sam Funamura, Koichi Kiyomura, Hideo Muto and Gary Nagai.

TACKLE FOOTBALL GAME DROPPED AT POSTON

Tackle football was recently discontinued at Poston III when their initial contest on Nov. 28 resulted in severe casualty and minor injuries.

Disapproval of such violent sport by Dr. George Wada, Public Health officer, was the primary reason for considering the suspension of gridiron tilts.

In this Center, tackle football is the prevailing major weekend sports feature. Regulation football is made possible here as every gridster is adequately equipped with proper togs. Thus, serious mishaps have been averted in the Center's gridfests.

ROHWER FIGHTERS CHALLENGED

By N. Kashiwabara

Word was received recently from neighboring Jerome, Rohwer's little sister, that pugilists there are itching for an opportunity to test Rohwer boys in a boxing match sometime around Christmas, if possible.

Jerome boxers, rugged grape-pickers from Fresno and seasoned fruit-stand hustlers from Los Angeles, are believed to be coached by smooth-talking, go-get-

GYMNASIUM SET FOR 1943

By Moe Hasegawa

There will be no indoor basketball for the Center this winter.

The proposed \$45,000 combination high school auditorium and gymnasium will not begin construction until late next summer, according to the Public Works division. The building will not be completed until next fall.

But survey of the grounds are now under progress, and construction on the first building of the \$100,000 Rohwer high school is expected to begin soon.

According to plans the gymnasium roof will be semi-cylindrically shaped and the structure will cover an area 118 feet square. Extending from one side will be a wing, the Health Unit.

Within the actual building there will be three sections. One part forms the boys' side, comprising of a coach's office, and equipment, storage, rest room, shower and locker compartments. On the other side, lies the identical

girls' section.

In the middle portion is the playing floor with the stage on the extreme end opposite the entrance. Above the entrance is the projection room.

The hardwood basketball court will be 80 by 96 feet and will be 20 feet high. There will be space on each side for bleachers; no balcony will be erected. The seating capacity of the auditorium for stage shows will be about 2000.

The stage will be 40½ by 22 feet wide. Dressing and storage rooms will be located on either side.

Now that the workers have passed the blue print stage into the actual construction, the residents can prepare for basketball in 1943.

GRANADA PLANS TO BUILD GYM

GRANADA -- The gymnasium that is to be built adjoining the high school will have a floor dimension of 144 feet by 68 feet.

However, the actual playing floor will be 90 feet by 50 feet. The height to the truss will be 18 feet.

Collapsible bleachers will be a feature of the gymnasium, which will also have a stage, 23 feet by 68 feet. A projection booth for future movies will be built on the balcony.

FOOTBALL POSTPONED

Due to adverse weather, tackle football for this weekend has been postponed, announced Sam Minami, director of men's athletics.

ting Jimmy Honji, well-known to ex-Anitans.

Earnest training for Rohwer boxers and hopefuls will begin in PS hall 14 as soon as fiber boards are removed from there.

Gloves, heavy bags and gloves will be provided by the athletic department. Ring artists must bring their own towels, mouth guards and bandages, stated boxing director Takashi Hishima.

EDITORIAL

WE WHO ARE AMERICANS

When we evacuated the Pacific Coast, two questions were uppermost in our minds: One was "How are we to re-establish ourselves economically after this cataclysm?" The other, the more important, was "Will we 'who are truly Americans from birth or residence' be recognized during and after the war as Americans?"

The first we cannot as yet solve. Concerning the second, this heartening and understanding editorial appeared in the Wednesday issue of the Arkansas Gazette.

"The violent outbreak in a Japanese relocation center in California should admonish all Americans to distinguish between Japanese who are truly American from birth or residence in the United States and those who have remained Japanese although they are permanent residents of this country.

"The director explains that some of those in this California center are Japanese-born and some were educated and 'indoctrinated' in Japan even though they were born in America. The others demonstrated their loyalty to this country by cooperating fully with the camp authorities in effort to control the disloyal faction.

"It was a shock to have this outbreak occur but it is significant and gratifying that the riot, which had to be put down by tear gas and gunfire, arose from the opposition of Japanese Americans in the camp to a demonstration by a pro-Axis faction on the anniversary of the Pearl Harbor attack.

"There are many Americanized Japanese right here at Camp Robinson wearing the uniform of our army and serving as American soldiers. They would resent any suggestion as loyal American Japanese in Arkansas relocation centers would, that they were not good Americans, as they actually are American citizens.

"The question now is what to do with the 'Japanesized Japanese.' In fairness to the Japanese-Americans it seems they should be weeded out and segregated."
